- EARTH MOVING EQUIPMENTS
- HEAVY CONSTRUCTION EQUIPMENTS

ABOUT US:

industry, offering top-notch lifting and construction solutions. Located in Transport Nagar, Nigdi, Pune, we are a leading provider of telescopic mobile cranes ranging from 3 MT to 300 MT, along with forklifts, man lifts, crawlers, earth-moving equipment, and heavy construction machinery. Over the years, we have built a strong reputation for quality, reliability, and customer-centric services, making us the preferred choice for industries across Maharashtra.

With ISO 9001:2015 certification, we maintain a high standard of safety, quality, and efficiency, ensuring that every project is executed with precision and professionalism. Our fleet is well-maintained, and our team is composed of dedicated experts who work tirelessly to meet client needs. From lifting and installing heavy structures to decommissioning large-scale machinery, we cater to diverse sectors, including construction, manufacturing, infrastructure, and energy.

Our mission is to enhance construction efficiency by providing seamless lifting solutions that optimize plant operations and reduce downtime. We are committed to integrity, innovation, and workplace safety, ensuring minimal environmental impact while upholding the highest ethical standards. As a customer-focused company, we continually expand our services to meet the evolving demands of the industry, delivering unmatched value, safety, and efficiency.

AIM:

To be the most trusted and customer-centric crane service provider in Maharashtra, delivering excellence in quality, service, and value.

VISION:

To become the leading provider of crane services by ensuring outstanding customer satisfaction, reliability, and operational efficiency.

MISSION:

To provide premium lifting, installation, and decommissioning solutions for heavy structures, enhancing construction efficiency and optimizing plant operations with a focus on safety, quality, and customer success.

OUR PRODUCTS & EQUIPMENT

At BRC CRANES, we offer a wide range of high-quality lifting and heavy construction equipment to meet diverse industrial needs. Our fleet is well-maintained and operated by skilled professionals to ensure safety, efficiency, and reliability in every project.

TELESCOPIC MOBILE CRANES (3 MT TO 300 MT)

We provide mobile cranes with lifting capacities ranging from 3 MT to 300 MT, suitable for various industrial applications, including construction, infrastructure projects, and heavy machinery installation. These cranes offer high maneuverability, precision, and efficiency in lifting and transporting heavy loads.

FORKLIFTS

Our forklifts are available in various capacities to handle material movement, warehouse operations, and industrial lifting needs. They ensure safe and efficient handling of goods in confined spaces, factories, and logistics centers.

MAN LIFTS

We offer aerial work platforms and boom lifts to enable workers to access high elevations safely. These are essential for maintenance, installation, and construction work in commercial and industrial settings.

CRAWLERS

Crawler cranes are designed for heavy-duty lifting and can operate on challenging terrains. They are ideal for large-scale infrastructure and construction projects, providing superior stability and high lifting capacity.

EARTH MOVING EQUIPMENT

Our fleet includes bulldozers, excavators, backhoe loaders, and motor graders to support construction, mining, and roadwork projects. These machines are built for durability and performance in excavation, grading, and land development tasks.

HEAVY CONSTRUCTION EQUIPMENT

We provide a variety of high-performance construction equipment, including loaders, dumpers, compactors, and hydraulic cranes to support major construction and industrial operations.
